Achieving Health Equity: Opportunities for Psychosomatic Science

The APS 2020 Annual Meeting

If you aren't able to attend this year's APS Annual Meeting in person, you can still join some of the foremost leaders in the field as they discuss their research by participating remotely via the [APS 2020 live stream broadcast](#) of plenary sessions including:

[Steve Horvath](#)'s talk on the Epigenetic clock (March 14, 9:00 -10:00am PDT);

Eliseo Pérez-Stable, Director of the National Institute on Minority Health and Health Disparities on minority health and health disparities science in psychosomatic medicine (Friday, March 13, 8:15 – 9:15am PDT)

Bob Kaplan's presentation identifying deficiencies in methods used to evaluate new medicines and treatments (March 12, 3:00 - 4:00pm PDT);

Nim Tottenham, the Paul D. MacLean Award recipient for 2020 on Emotion Regulation Neurobiology and the Role of Early Experiences (March 14, 10:15 - 11:15am PDT);

Wizdom Powell, President of APA Div 51, the Society for the Psychological Study of Men and Masculinities, on the pursuit of health equity (March 12, 8:15 - 9:15am PDT);

and **Chris Fagundes**, recipient of this year's APS Herbert Weiner Early Career Award, will address Matters of the Heart (March 14, 11:30am -12:30pm PDT).

Plus bonus content from your colleagues' submitted science, all for a flat fee of \$375. And the **APS 2020 live stream broadcast** includes a chat feature that allows you to participate in the Q&A!

While these sessions may be taking place at times that might not be convenient for you, your purchase of this content gives you access to the recorded talks as well. Content will play on PCs, Macs, and mobile phones (iPhones require Google Chrome app).

To participate, [register here](#).
