

Paige A. Green, Ph.D., M.P.H., F.A.B.M.R., F.A.P.S. is chief of the Basic Biobehavioral and Psychological Sciences Branch in the Behavioral Research Program, Division of Cancer Control and Population Sciences at the National Cancer Institute (NCI). Her NCI career has focused on cultivating research that generates fundamental knowledge of behavioral, biobehavioral, and psychological science mechanisms and elucidates their translational relevance for cancer prevention and control. She has built a multidisciplinary research program spanning preclinical models to clinical studies of biobehavioral mechanisms and interventions. Recent initiatives include the [NCI Network on Biobehavioral Pathways in Cancer](#) and [Cancer and Accelerated Aging: Research for Healthier Survivors](#).

Dr. Green received her undergraduate degree in psychology and her doctorate in clinical psychology from the University of Miami in Coral Gables, Florida. Her doctoral training included an emphasis on behavioral medicine and psychophysiology within the context of cardiovascular disease. She completed a clinical psychology internship specializing in health psychology through the Brown University Clinical Psychology Internship Training Program and postdoctoral fellowships at Memorial Sloan Kettering Cancer Center and Howard University Cancer Center (HUCC). She received a Master of Public Health degree from the Bloomberg School of Public Health at Johns Hopkins University in 2005. After working as an assistant professor of medicine at the Howard University College of Medicine and a research psychologist at HUCC, she joined the Behavioral Research Program as a program director in 2001 and has been branch chief since 2007.

Dr. Green is an elected fellow and Secretary of the Academy of Behavioral Medicine Research and Past President of the American Psychosomatic Society (2020-2021). She has served as an editorial board member, guest editor, and manuscript reviewer for various peer-reviewed journals, including *American Psychologist*, *Health Psychology*, *Psychosomatic Medicine*, and *Brain, Behavior, and Immunity*. In 2022, she joined *Health Psychology* as an Associate Editor.

Dr. Green is a 2010 NCI Senior Executive Enrichment & Development Leadership Program graduate. She has received the National Institutes of Health (NIH) Awards of Merit for the NIH Genes, Environment, and Health Initiative (2012), the NIH Basic Behavioral and Social Science Opportunity Network (2012), and leadership of basic behavioral science at NCI and NIH (2013). Dr. Green received the 2015 NIH Director's Award for exemplary performance while demonstrating significant leadership, skill, and ability in serving as a mentor and the 2015 NCI Knowledge Management Program Exceptional Mentor Award. Dr. Green was selected as one of five federal servants to receive the 2015 Meritorious Research Service Commendation from the American Psychological Association Board of Scientific Affairs to recognize her outstanding contributions to psychological science at NCI. In 2020, Dr. Green and colleagues received an NIH Director's Award for the Trans-NIH Geroscience Interest Group Summit III held in 2019. She received the 2021 Distinguished Alumni Award from the Department of Psychology, College of Arts and Sciences, University of Miami, and the 2021 Outstanding Lifetime Service Award from the Academy of Behavioral Medicine Research. She was selected as a Fellow of the American Psychosomatic Society in 2023.
