------------------	---

Ivanova Veras de Jesús is a Fulbright guarantee from the Dominican Republic and a doctoral student in the Department of Psychological Sciences at Rice University as part of the Health Psychology & Behavioral Medicine and Cognitive and Affective Neuroscience programs. They received their B.A. in Clinical Psychology from Universidad Iberoamericana (UNIBE), Dominican Republic. Their research interests are regarding the neurocognitive and psychophysiological effects of stress, discrimination, and negative life situations within marginalized communities. Specifically in the way these experiences impact health and well-being. They are also interested in possible actions that can be taken to prevent and/or mitigate these effects.
